A child welfare system that ensures every youth has a bright future

Child Welfare PAC Canada is working with any post-secondary partners in Canada who wish to increase social mobility for people raised in foster care.

Finances are a significant, but not only, barrier to post-secondary studies faced by people raised in care. So far, Child Welfare PAC has worked with various Canadian post secondary institutions to create over 210 places that address financial barriers to post-secondary education. Participating schools will ensure finances are not the barrier for post-secondary studies without age restrictions. Upgrade when you are ready!

Our end goal is similar opportunities at all post-secondary schools coast-to-coast.
